

CSEasy range SC 20 2007/2008

Product no. (Black Compound)	Tyre set
1378039	SET 125/75-8 (15x4 1/2-8)
1378041	SET 150/75-8 (16x6-8)
1378042	SET 180/70-8 (18x7-8)
1378048	SET 5.00-8*
1378044	SET 200/75-9 (21x8-9)
1378050	SET 6.00-9*
1378045	SET 225/75-10 (23x9-10)
1378052	SET 6.50-10
1378046	SET 250/7512 (27x10-12)
1378055	SET 7.00-12
Product no. (SuperClean)	Tyre set
1378036	SET 125/75-8 (15x4 1/2-8)
1378040	SET 150/75-8 (16x6-8)
1378034	SET 180/70-8 (18x7-8)
1378047	SET 5.00-8*
1378043	SET 200/75-9 (21x8-9)
1378049	SET 6.00-9*
1378037	SET 225/75-10 (23x9-10)
1378051	SET 6.50-10
1378038	SET 250/7512 (27x10-12)
1378035	SET 7.00-12

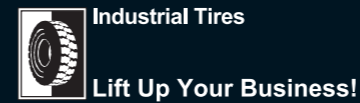

*available May 2008

Simple.
Economical.
Revolutionary.

11/2007

A revolutionary fitting principle

The innovation made by Continental means that using your forklift is now even more profitable. CSEasy is the first Super-Elastic tyre that does not require a fitting press and also offers unbeatable financial benefits in daily operation. A revolutionary fitting principle using a specially developed adapter is the secret of its success.

CSEasy - the simple solution to changing tyres without a fitting press

Up to now, changing any Super-Elastic tyres required a stationary or mobile press, plus an experienced fitter. With the CSEasy tyre and its innovative tapered adapter, things are quite different. The tyre can be fitted quickly and easily to any Lemmerz-style rim—two hands and a torque wrench are all that is required!

The adapter locks firmly into the integrated tyre brackets and the system of fixing bolts provides a safe connection, ensuring that the tyre sits well on the rim.

You're in control! With the revolutionary CSEasy fitting principle, you can cut your staff and transport costs, as well as reducing expensive downtimes.

More flexibility

- No press needed, no waiting or transport times
- No need to hold rims in stock, no exchange system, no special tools
- Two hands and a torque wrench are all you need
- Reusable adapter

More benefits

- Optimised fit, more durability
- Less rolling resistance reduces energy consumption
- Faster, more precise steering/cornering performance
- Greater safety due to improved stability
- Reduced heat build-up, delivering more performance reserves for tough applications

More economical than ever before

CSEasy not only simplifies fitting, but also offers attractive financial benefits. The latest Continental SC20 tyre generation combines these aspects and you can enjoy them—every time your vehicles are in use!

New – maximum mileage

The improved tyre construction of the SC20 already gives you up to 20%* increase in mileage performance. The special design of the CSEasy can raise this figure up by a further 20%, giving a potential 40% in total*. No other Super-Elastic tyre offers more!

New – constant savings

With the CSEasy, your vehicles will perform better whilst using 6%** less energy. This is because of the substantially reduced rolling resistance. Whether you use electricity or fuel, CSEasy saves you money mile after mile.

Leading in climate and environment protection

CSEasy sets itself apart from its competitors thanks to maximum performance in terms of economy and a responsible attitude towards the environment. The low energy consumption means lower CO₂ emissions. The exclusion of nitrosamines and highly aromatic oils in accordance with EU Guideline 2005/69/EG is important both for people and their health. CSEasy—the class leader in every way.

Simple. Economical. Revolutionary. Here's what CSEasy users have to say:

"I can sum up fitting CSEasy tyres in four words: simple, quick, reliable, economical."
Regis Monnot, Fenwick-Linde
(Peugeot PSA, Vesoul, France)

"Fitting CSEasy tyres is fantastic! It is very quick, extremely straightforward, and saves time—I can do it here on the spot without the need for a press."
Francis Blaser, Aprolis
(Kronenbourg, Champigneules, France)

"Fitting CSEasy tyres is very simple and no press is required."
Mr. Beyler, Kuhn (Saverne, France)
